PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building web applications using Java, Spring Boot, React.js, and REST APIs. Developed secure authentication systems using JWT, integrated WebSocket-based real-time communication, and worked with MySQL databases. Built and deployed end-to-end projects with strong understanding of backend development, frontend integration, and client-server architecture.

TECHNICAL SKILLS

Backend Development: Java, Spring Boot, Java Servlets, Hibernate (JPA)

Frontend Development: React.js, JavaScript, HTML5, CSS3

Database Technologies: MySQL

Tools & Platforms: Git, GitHub, Postman, VS Code, Apache Tomcat

Core Concepts: Data Structures & Algorithms, OOP, Client-Server Architecture

PROJECTS

CraveKart - Multi-Role Food Delivery Web Application

GitHub

Java, JSP, Servlets, JDBC, MySQL, JavaScript (AJAX), Apache Tomcat

- Built a multi-role food delivery platform (Customer, Restaurant, Delivery Partner, Admin) with secure authentication and role-based dashboards using Java Servlets and JSP.
- Designed a layered architecture (Servlet to Service to DAO to Model) with JDBC/MySQL to manage restaurants, menus, carts, orders, and coupons via modular CRUD.
- Built a dynamic AJAX-based cart and checkout system with real-time quantity updates, coupon application, and live price calculation.
- Integrated Razorpay Payment Gateway (Test Mode) with server-side order creation, HMAC-SHA256 signature verification, and Cash-on-Delivery support.
- Implemented server-side session management using HttpSession to maintain secure login state across all four user roles.

Study Group Finder - Full Stack (Infosys Springboard Virtual Internship)

GitHub

Spring Boot, React.js, Spring Security, JWT, Hibernate (JPA), WebSocket, MySQL

- Built a full-stack study group platform enabling users to create, join, and manage groups using Spring Boot and React.js.
- Implemented JWT-based authentication with Spring Security for secure login and role-based access control.
- Developed a responsive React.js frontend integrated with REST APIs for seamless user interaction.
- Designed relational data models using JPA/Hibernate to manage users, groups, and memberships.
- Integrated WebSocket-based real-time chat for instant messaging between group members.
- Structured REST API request-response handling with proper HTTP status codes for authentication, group, and messaging workflows.

CERTIFICATIONS

- Java Foundation Certification - Infosys Springboard
- Full Stack Development Internship - BLACKBUCKS (APSCHE)
- Software Engineering Job Simulation - JP Morgan Chase (Forage)

EDUCATION

B.Tech - Computer Science and Engineering

2022 - 2026

Sri Venkateshwara College of Engineering and Technology, Chittoor

CGPA: 7.96

Intermediate (Class XII)

2020 - 2022

Vagdevi Junior College

Percentage: 71%

SSC (Class X)

2020

Sri Vengamamba High School

Percentage: 99%
